Uthman Ogunbowale

Junior Software Developer

A software developer who is dedicated and with a passion for writing reusable codes that satisfies users story is seeking an internship role where I can apply my problem solving and decision making skills in identifying customer needs and delivering effective solutions to all problems while working towards the mission of a company. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Willing to take on added responsibilities to meet teams goal. I would also like to build on my experience as a programmer in a challenging and goal-oriented work environment.

PERSONAL PROJECTS

Edie homepage (04/2022 - Present)
- Demo - https://edie-homepage-hotmann.netlify.app
- Created a static page with HTML and CSS following the given designs using position, grid, flexbox and float.
- Made sure it was responsive as many breakpoints were created.

Bankist (03/2022 - 04/2022)
- Demo - https://bankist-hotmann.netlify.app
- Built an online bank interface where you have to sign-in with the correct details then it takes you to the home page .
- Transfers and Loan request and closing of account can be done successfully. Users will be logged out after a period of inactivity.

Interior Consultant (04/2022 - 04/2022)
- Demo - https://interior-consultant-hotmann.netlify.app
- I was able to build an interior consultant page and improve on responsive web design arranging the containers using flexbox.

My Budgety (02/2022 - 02/2022)
- Demo - https://budgety-hotmann.netlify.app
- Built a single page website which helps in preparing your budget for the month.
- Users can successfully add items to the income or expenses section and the budget available.

Natours (11/2021 - 11/2021)
- Demo - https://natours-hotmann.netlify.app
- Built a responsive single page website for a non existing tour company.
- Used CSS preprocessor (SASS) to build the website.
